VIBRATING SCREEN

**DRIVEN BY ROUNDING MOTION OR VIBRATOR,
ROUNDING VIBRATING SCREEN IS WIDELY
APPLIED IN QUARRIES AND MINES IT FEATURES:**

Adjustable Amplitude

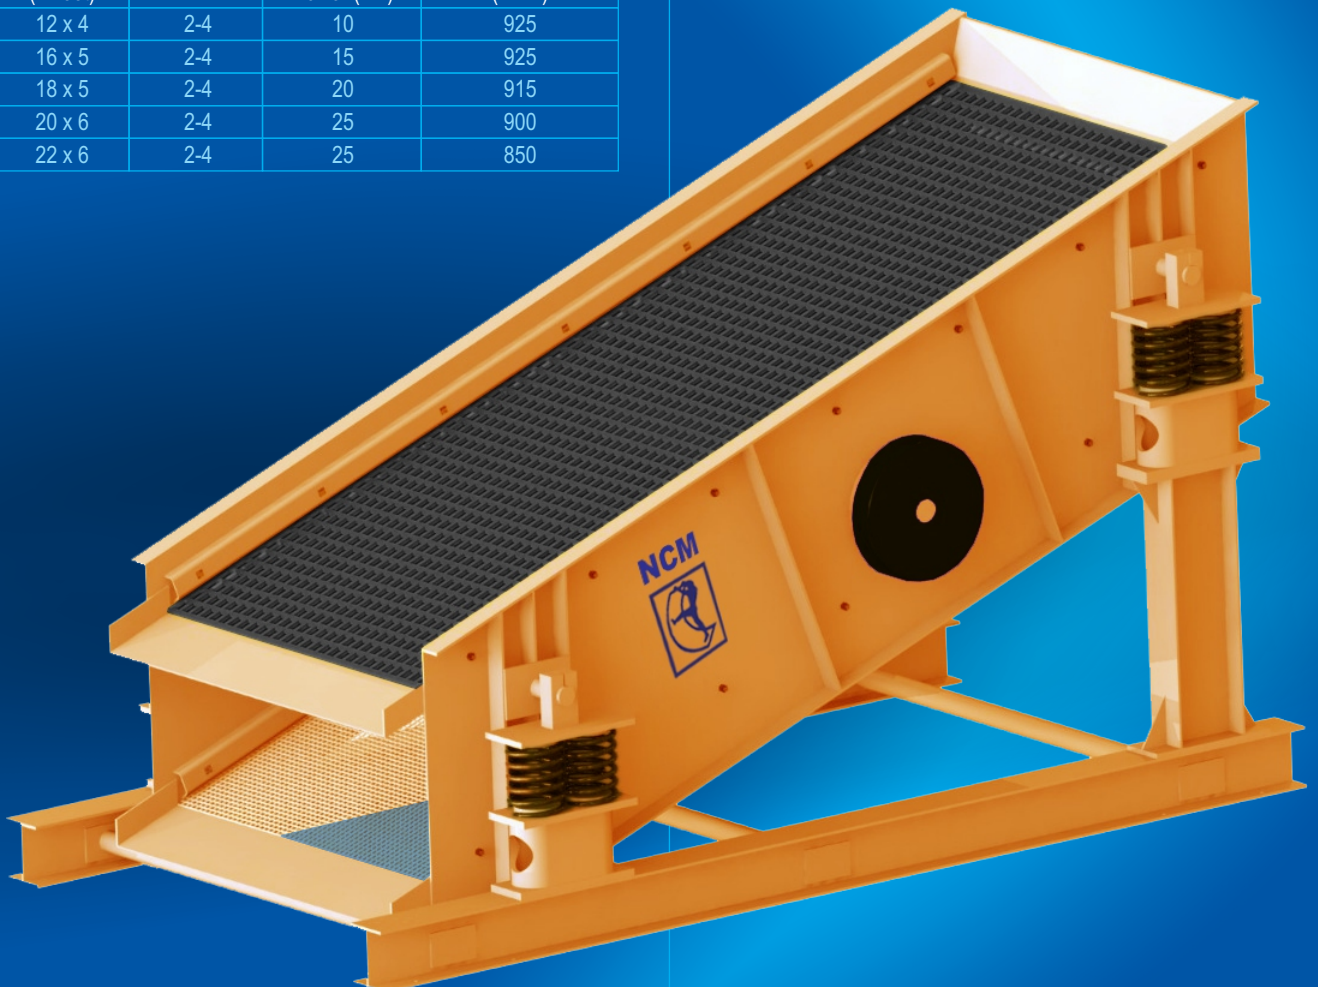

Long Dropping Line

Multiple Option for Screen Requirements

Big Screen Mesh with Multi-Decks

High Screen Efficiency

Model No.	Screen Size (in feet)	No of Decks	Recommended Power (HP)	Vibrating Frequency (RPM)
NVS-615	12 x 4	2-4	10	925
NVS-800	16 x 5	2-4	15	925
NVS-800S	18 x 5	2-4	20	915
NVS-1000S	20 x 6	2-4	25	900
NVS-850	22 x 6	2-4	25	850

About NCM

PIONEER PRECISION PERFECTION

These words express the Spirit behind the team NCM that is reflected in the Design, Manufacturing, Technology and Quality of our products.

We are the only Indian company manufacturing and exporting locally made, globally successful range of breakers, quick couplers and excavator attachments, since over a decade. Out of over seventy products we make, we are the patent holder for Vertical Shaft Impactor, a tertiary stage crusher for aggregate manufacturing plants (Patent No. 194111). Patent is in process for Quick Coupler. While meeting the most stringent international standards of our customers, we take every innovation as an opportunity to scale new technical frontiers.
